

ENVIROFILL[®]

Specs

Round shaped coated sand that helps reduce fluid absorption and improve drainage

Integrated with anti-microbial that helps control growth of bacteria, mold, and odors.

Improves Turf Life

Non-Toxic

Available in 12/20 and 16/30 blend

Features

Envirofill[®] can be used as infill for artificial grass lawns, playgrounds and putting greens. Smart Fill has a special coating containing antimicrobials to help prevent the growth of bacteria, mold and mildew. It helps keep turf blades standing up and prevents damage to blades.
